

SHEFFMED
BRITISH INNOVATION GLOBAL CONSCIENCE

LED Headlight

LIGHTER AND BRIGHTER

Our new headlight is an anatomically designed, single fit device that provides wireless high intensity LED light with unparalleled battery life. This is further enhanced by a quick release power pack change feature which provides near continuous use.

After two years of research and development we are immensely proud of our headlight. This is a very British product, designed and developed in Sheffield and supporting UK manufacturing.

DESIGNED AND BUILT IN BRITAIN
Exported Worldwide

ANATOMICALLY DESIGNED

for a Perfect Fit

to be
Different**

The Sheffmed Team

Sonia Hobson
Managing Director

Sonia graduated from Lancashire University with a degree in European Business Studies. From university Sonia joined Downs Surgical and worked primarily in export until 1999.

Sonia established Sheffmed in 2000 with Alan and is responsible for the internal workings of the company. She's married with 3 dogs, 3 cats and enjoys organising the company social calendar.

Alan McNulty
Director

Alan started life out in the Forces before joining the NHS and working in procurement. In 1991 Alan joined the private sector and so began his career in sales and marketing.

Before establishing Sheffmed with Sonia, Alan was responsible for export sales in Asia Pacific with Downs Surgical. Alan is married with 3 dogs and a motorbike that his wife does not know about.
